The Genesis of Divine Melodies

Yogananda's musical journey began in his childhood in Gorakhpur, India. As a young boy, he soaked in the devotional melodies of his homeland, absorbing the devotional songs and bhajans that permeated the air. His innate musicality blossomed as he learned to play the harmonium and tabla, and he later composed his own songs that expressed his longing for God.

Upon his arrival in America in 1920, Yogananda found that music could transcend cultural barriers and touch hearts across oceans. He began to incorporate his songs into his lectures and public gatherings, and soon they became an integral part of his teachings.

A Bridge to the Divine

Yogananda believed that music had a powerful ability to connect humanity with the divine. In his autobiography, "Autobiography of a Yogi," he writes:

> "Music has always been a sanctified vehicle for man's expression of yearning for the Infinite."

Through his songs, Yogananda sought to create a bridge between the human soul and the divine, evoking emotions that would awaken consciousness and inspire spiritual aspirations.
